** The shelf life for an unopened container of this adhesive stored at temperatures between 60°F (15.6°C) and 95°F (35°C) is 1 year from date of manufacture. Store out of direct sunlight in a cool, well-ventilated area. Avoid storing container directly on the floor or against an outside wall

APPLICATION INFORMATION

- In wiping adhesive smears off work, avoid flooding the area to be cleaned since excess solvent can work into seams, softening the bond line, and causing delamination.
- Use a cloth that is saturated with solvent but not dripping.
- Keep solvent contact at the edges and seams of the lamination to a minimum to avoid the danger of softening the bond line.
- The sooner the smears are removed the easier it is to remove them.
- DO NOT THIN.

ATTENTION:

- Empty container remains hazardous until all flammable vapors, which may explode upon ignition, are gone from residue and container. Observe all labeled hazard precautions. Do not cut, puncture, or weld while hazard exists.
- Do not reuse empty container. Recycle, or dispose of, according to all federal, state, and local regulations. Follow solvent manufacture's recommendations and instructions for safe handling.
